Work Experience

Whole Foods Market

Team Member

Atlanta, GA

September 2020 - January 2023

- Troubleshoot technical issues related to Amazon Prime and managed customer complaints daily
- Trained five new employees on interfaces for inventory, Amazon shopping, and checkout processes

Delta Community Credit Union

Member Care Agent

Atlanta, GA

October 2019 - March 2020

- Updated customer information in the company database, ensuring accuracy and efficiency
- Resolved escalations using the company knowledge base over twice weekly

Clayton County Solicitor's Office

Victim Advocate

Newnan, GA

May 2018 - December 2018

- Streamlined more than 100 digital case files through the organization of data
- Scrutinized video evidence from over 30 court cases to create detailed records

Projects

ChessWager (open-source contributor) - A betting platform for live professional chess games

- Converted ChessWager's React TypeScript front-end from vanilla CSS to Tailwind CSS
- Contributed over 90,000 lines of code (as spaceC00kie) using React, TypeScript, Tailwind, and Firebase
- Executed light mode overhaul to the entire UI
- Engineered and animated the custom dropdown menu at the top-right by completing more than 20 collaboratively designed Jira tickets; It is a core feature of the website providing access to all user info

Frozi (open-source contributor) - A smart-contract time vault for cryptocurrency

- Wrote six engaging informational cards with a unique color palette and blur from a reusable component
- Crafted multiple reusable components by following the product owner's design standards

Kibble Check - A progressive web app to keep track of pet meal histories

- Programmed a unique rolodex-style calendar interface from scratch using React and Framer Motion
- Deployed this full-stack PWA at kibblecheck.com

Keep My Plants Alive - A full-stack system for soil moisture monitoring

- Sustained three pothos vines and a dracena plant using this n-tier architecture system combining an Express API with a React server running on a Raspberry Pi with moisture sensors

Education

Clayton State University

Graduated December 2018

Bachelor of Science in Cultural Studies & Workforce Leadership
